MICHIGAN DEPARTMENT OF NATURAL RESOURCES MISSION STATEMENT

"The Michigan Department of Natural Resources is committed to the conservation, protection, management, use and enjoyment of the State's natural resources for current and future generations."

NATURAL RESOURCES COMMISSION STATEMENT

The Natural Resources Commission, as the governing body for the Michigan Department of Natural Resources, provides a strategic framework for the DNR to effectively manage your resources. The NRC holds monthly, public meetings throughout Michigan, working closely with its constituencies in establishing and improving natural resources management policy.

The Michigan Department of Natural Resources (DNR) provides equal opportunities for employment and access to Michigan's natural resources. Both State and Federal laws prohibit discrimination on the basis of race, color, national origin, religion, disability, age, sex, height, weight or marital status under the U.S. Civil Rights Acts of 1964 as amended, 1976 MI PA 453, 1976 MI PA 220, Title V of the Rehabilitation Act of 1973 as amended, and the 1990 Americans with Disabilities Act, as amended.

If you believe that you have been discriminated against in any program, activity, or facility, or if you desire additional information, please write: Human Resources, Michigan Department of Natural Resources, PO Box 30028, Lansing MI 48909-7528, or Michigan Department of Civil Rights, Cadillac Place, 3054 West Grand Blvd, Suite 3-600, Detroit, MI 48202, or Division of Federal Assistance, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Mail Stop MBSP-4020, Arlington, VA 22203

For information or assistance on this publication, contact Grants Management, Michigan Department of Natural Resources, PO Box 30425, Lansing MI 48909-7925.

This publication is available in alternative formats upon request.

SECTION I. TRAIL SPONSOR YEARLY SCHEDULE

<u>Description</u>	<u>Form Number</u>	<u>Due Date</u>
Grant Applications Due	PR1851, PR1852, PR1854	July 31, 2006
Reimbursement Requests and Grooming Reports Due	PR1855, PR1858	15th of following month that grooming was performed
Trail Sign Order Due	PR1857	March 23, 2007
Equipment Status Reports Due	PR1856	April 20, 2007
Final Reimbursement Request Due for Grooming, Brushing, Signing and Miscellaneous Expenses	PR1858	April 30, 2007

SECTION II. SNOWMOBILE TRAIL GRANT PROGRAM SUMMARY**A. LEGISLATIVE AUTHORIZATION**

Under the general authority of Part 5, Section 503 of the Natural Resources and Environmental Protection Act (1994 PA 451, as amended, hereinafter referred to as Act 451), the Michigan Department of Natural Resources (Department) is charged with the duty to "provide and develop facilities for outdoor recreation." Part 821 Snowmobiles of Act 451 charges the Department with the responsibility to implement a statewide recreational and snowmobile trail system. Revenues collected under Part 821 are appropriated by the State Legislature to the Department for the purposes of constructing and maintaining trails on lands under its control, or lands leased for public snowmobile trail purposes. The appropriated funds are also for the purpose of developing a plan for management of snowmobile use on designated trails or areas, and forest roads maintained by and under the jurisdiction of the Department or trails maintained by snowmobile trail sponsors under grant agreements issued by the Department.

B. SNOWMOBILE GRANT PROGRAM PURPOSE

The purpose of the recreational and snowmobile trail grant program is to provide financial assistance to local units of government and incorporated nonprofit groups for the development and maintenance of snowmobile trails. Funds are allocated and paid to the grantees on a reimbursement basis through a formal grant agreement between the grantee and the Department. Funds are available for development of new snowmobile trails; maintenance of existing trails including grooming, signing and brushing of the trails; leases, easements or permits for public snowmobile trails on private lands; comprehensive/collision insurance for grooming equipment and trail liability insurance.

C. PROGRAM GOALS: STATEWIDE TRAILS INITIATIVE

The Michigan snowmobile trail program began as a small, loop trail system, with the goal of tying these loops together into an interconnected system of trails. Now, the primary long-term goal of the Michigan snowmobile program is the development of an interconnected network of groomed snowmobile trails from the Michigan-Indiana border to the Mackinac Bridge and from the Mackinac Bridge to Ironwood. Acquisition, establishment and use of abandoned railroad corridors are critical to accomplishing this goal.

A second long-term goal is to establish a system of permanent, public land trails throughout the State. Many trails were required to be rerouted as private lands changed ownership, and even trails on public lands have been relocated. The Department continues to seek conversion of abandoned railroad grades and other corridors throughout the State, as well as establishing permanent trail corridors on public lands through acquisition of land or rights in land.

SECTION III. SNOWMOBILE GRANT PROGRAM GENERAL INFORMATION

A. TRAIL MAINTENANCE AND GROOMING

For reimbursement purposes, trail maintenance and trail grooming includes annual clearing and brushing, sign maintenance, and grooming of trail surfaces. Signs and posts are provided by the Department and annual brushing and signing is required to be completed prior to the opening of snowmobile trails on December 1. The grooming season is generally from December 1 to March 31, depending on snow conditions. Reimbursement for grooming work conducted after this time period must be pre-arranged through written agreement with the Department.

B. INDEMNIFICATION AND LIABILITY INSURANCE

The trail sponsor is required to obtain liability insurance with the following provisions:

- ❖ General Commercial Liability Insurance Policy: The required liability insurance shall protect the trail sponsor from claims which may arise out of or result from the trail sponsor's operations.
- ❖ Minimum policy limit of \$500,000 per occurrence for property damage; \$1,000,000 per occurrence for bodily injury and \$2,000,000 aggregate.
- ❖ The State of Michigan must be listed as an additional insured using the following language:

"State of Michigan, its departments, boards, agencies, commissions, officers and employees"

Listing the State of Michigan as additional insured protects the State of Michigan from claims arising out of the trail sponsor's acts in meeting responsibilities under the grant agreement. It does not mean that the trail sponsor must protect the State of Michigan from all accidents or injuries that occur on the public trail system.

- ❖ All private land owners must be listed as additional insured.
- ❖ Thirty days' written notice prior to any change or cancellation of the insurance policy to must be submitted to: Grants Management, Michigan Department of Natural Resources, P.O. Box 30425, Lansing, Michigan 48909-7925.
- ❖ Liability insurance coverage must be for the term of the grant agreement. If the certificate of insurance expires during the grant period, the trail sponsor must provide an up-to-date certificate of insurance to Grants Management.

The actual cost of the insurance premium, supported with proper documentation, is reimbursable through the grant program. The maximum amount payable is \$2,500 unless otherwise approved by the Department. The deductible applicable to a claim is not a reimbursable expense.

A certificate of insurance is required to be provided by the trail sponsor when submitting a grant application to the Department for snowmobile trail program funding.

If a certificate of insurance meeting the above requirements is not provided by the trail sponsor, a grant agreement will not be issued.

C. LAND CONTROL (LEASES, EASEMENTS, AND USE PERMITS)

All private land that the trail sponsor will be utilizing in carrying out the work specified in its snowmobile trail program grant must be secured through lease, easement, or use permit. Documentation of secured land is required to be provided to the FMFM Unit Contact, in addition to a certification by the trail sponsor that written permission has been secured from the private landowner(s) for a public trail right-of-way.

All trail sponsors are required to provide the following documentation with their application:

1. Documentation that the trail sponsor has secured written permission from private property owners for the right to enter, occupy, use, and maintain the public snowmobile trail segments which are the subject of the grant application. Such documentary evidence may include deeds, leases, licenses, easements, or use permits. This evidence must be coded to correspond to the trail location maps required in Item 3 below.
2. A list of names, addresses, amount of lease payment, if applicable, and the length of trail that crosses each private landowner's property.
3. Plat book map(s) identifying the specific location of the entire trail which is the subject of the grant application and the specific location of each leased section of the trail.

If the documentation listed above is not provided to the Department by the trail sponsor, a grant agreement will not be executed (signed by both parties).

All expenditures prior to the date of the executed grant agreement are not eligible for reimbursement and will not be considered.

A trail sponsor will not be eligible for payment on any trail segment that does not have written land control.

If land control is obtained during the grooming season and the trail segment is not on the executed grant agreement, an amendment must be prepared.

Payment will be from the date the amendment is executed.

D. NONPROFIT STATUS CERTIFICATION

A trail sponsor's non-profit status must be renewed each year through the Michigan Department of Labor and Economic Growth (DLEG).

New for the Fiscal Year 2006-2007 applications, trail sponsors will not be required to send a copy of their non-profit certificate to the Department. Grants Management will verify non-profit status with DLEG for each trail sponsor prior to issuing a grant agreement. Grant agreements will only be issued to trail sponsors with non-profit status that can be verified for the current year.

E. SPECIAL MAINTENANCE

Funds are available for special maintenance projects such as bridge repairs, bridge construction on existing trails, erosion control measures, replacement of culverts, relocation of trails off of plowed roads, and other maintenance projects that must be completed to allow a trail to be opened, or remain open. Prior to applying for a grant, trail sponsors must coordinate with their FMFM Unit Contact to determine the need for special maintenance projects on the State designated trail system.

Recreational trail facilities or major improvements over \$10,000.00 shall not be constructed on private land unless a written agreement in the form of a lease, easement, or permit for a public right-of-way having a term of not less than five years is made between the owner of the land and the Department.

Review Criteria

The following criteria are considered by the Department to assess all requests for special maintenance projects:

1. Is the project directly related to the safety of the trail user?
2. Is the project necessary to protect the natural resources of the trail corridor?
3. Is the project for relocating a trail off of or away from an existing street, road or highway?
4. Is the project for relocating a trail away from other land use conflicts?
5. Is the project located on public lands or on leased private lands with a lease term of at least five (5) years?
6. Is the project recommended for approval, after inspection of the project area, by the FMFM Unit Contact?
7. Is the estimated project cost reasonable and, considering the availability of funding, feasible?
8. Is the project necessary to restore damage caused by the use of snowmobiles on the trail?
9. Is the project necessary for the convenience of the trail user?

Bid Process and Project Cost Thresholds

Projects with estimated cost of \$2,499.99 or less:

These do not require bids and may be done by the trail sponsor or a subcontractor upon approval by the FMFM Unit Contact.

Projects with estimated cost of \$2,500 or more:

These are required to go through an advertised bid process with a minimum of three sealed, written bids and selection of the lowest qualified bidder. After opening bids, the trail sponsor must fill out the form *Bid Tabulation PR 1993* and forward written bids and bid tabulation form to their FMFM Unit Contact. If the trail sponsor recommends selection of other than the lowest bidder, a written justification must be provided to the FMFM Unit Contact. If three written sealed bids cannot be obtained, the trail sponsor must notify the Department in writing, stating the reasons for obtaining fewer than three bids. The written justification for not submitting three bids will be taken into consideration and a determination will be made to approve or require the project to be re-bid.

Approval from the FMFM Unit Contact must be obtained by a trail sponsor prior to awarding a contract and prior to starting any special maintenance project.

Trail sponsors should include the cost of regulatory permit fees in the estimate and allow ample time in the project scheduling for regulatory field inspections, possible modifications to the project, and permit issuance.

Contingency Funds

\$3,000 in contingency funds are provided on each trail sponsor's grant agreement for circumstances that require immediate attention, such as downed trees across a trail or other storm damage that may affect safe use of the trail. Written approval including scope of work and estimated cost must be obtained from the FMFM Unit Contact prior to conducting any work or incurring costs associated with a contingency project. The written approval must be specific to the project and dated prior to the start of the work. Cost overruns on funded projects are not eligible for contingency fund use.

The bid process requirements apply to all contingency-funded projects. Reimbursement procedures for contingency funds are the same as for other special maintenance projects. Along with the reimbursement request form, trail sponsors are to provide a copy of the written approval for the contingency project, obtained from their FMFM Unit Contact. Contingency funds expire on September 30 of the first year of a grant agreement.

Trail Sponsor Responsibilities

The trail sponsor's responsibility is to arrange for the design and construction of special maintenance projects listed on their grant agreement. This includes, but is not limited to: selecting a licensed professional (such as an engineering firm); overseeing preparation of plans and specifications; applying for permits; advertising for bids; awarding construction contracts; monitoring progress of construction; coordinating with, and reporting problems to the FMFM Unit Contact.

If engineered plans are required for the project (as described below), the plans must include necessary measurements, drawings and specifications to allow preparation of clear and complete bidding documents. Please allow additional time for review of plans and specifications by the Department during project planning. The trail sponsor must not advertise for bids or start work until receiving written authorization from the Department.

All projects involving on-site construction of structures or placement of pre-fabricated/pre-engineered structures must be designed, advertised and supervised by an engineering firm. This includes, but is not limited to: construction and/or placement of site-built bridges, pre-engineered bridges, pavilions, other buildings, and all associated appurtenances such as bridge abutments and soil stabilization; all projects for installation of a new culvert; all projects for replacement of a culvert with a different size culvert (either larger or smaller in diameter, or longer or shorter in length). Expenses related to the engineering of these projects are reimbursable and must be included in the project cost estimate.

If a project of any kind is estimated to cost more than \$15,000 a professional consultant(s) must be hired to prepare plans, specifications, reports, or land surveys with one or more seals by a Registered Architect, Registered Professional Engineer, Registered Land Surveyor, or a Registered Landscape Architect as called for in 1980 PA 299. The trail sponsor is responsible for providing a completed form *Professional Services Certification (PR1903 -1)* to their FMFM Unit Contact. The form must list the name and State registration number of each licensed professional hired for the design of the project.

Implementation Schedule

1. Following the criteria listed above, the trail sponsor selects and hires a licensed professional suitable for the type of special maintenance project to be completed. Trail sponsors are required to work with their FMFM Unit Contact in the selection process.
2. It is recommended that trail sponsors and FMFM Unit Contacts begin coordinating with State, local, and federal regulatory agencies in the early stages of planning the project. By gaining insight on regulatory constraints, re-drafting of plans and specifications, along with the inherent time delays, may be avoided.
3. Upon completion of construction plans and specifications, the trail sponsor submits the following items to their FMFM Unit Contact (only one copy of each item):
 - ❖ Sealed final construction plans;
 - ❖ Sealed labor and material specifications;
 - ❖ Itemized cost estimate, including consulting fees and permit fees;
 - ❖ Construction documents for projects or portions of projects done by contract, including advertisements for bid, bid proposals, instructions to bidders, and general conditions;
 - ❖ A completed Professional Services Certification form (PR1903-1).
4. All sets of plans and specifications submitted to the Department shall bear the seal or seals of the consultant(s) who prepared the plans. Nonstructural projects do not require sealed plans; however, they require the signature of the individual(s) who prepared them.

The Department reviews the plans and specifications and provides written comments and/or approval to the trail sponsor. Depending on the scope of the project, land ownership and agency jurisdiction, review of the plans and specifications may be coordinated with other offices as follows.

Projects on Federal Land: The FMFM Unit Contact submits the plans and specifications to the USDA Forest Service for engineering review and approval. The Forest Service provides written comments and/or approval to the FMFM Unit Contact.

Projects on State Land or Private Land: The FMFM Unit Contact submits the plans and specifications to the Department's Office of Land and Facilities for engineering review and approval. The Office of Land and Facilities provides written comments and/or approval to the FMFM Unit Contact.

5. The FMFM Unit Contact forwards the comments and/or approval to the trail sponsor, with a cover letter authorizing the trail sponsor to proceed with advertising for bids or requesting that the trail sponsor address the review comments. A copy of the comments and/or approval, and a copy of the cover letter from the FMFM Unit Contact to the trail sponsor are to be kept in the FMFM field office file.
6. Upon receiving written approval from the FMFM Unit Contact on the plans and specifications, the trail sponsor advertises for bids following the requirements listed under "Performance of Construction by Contract" in the Special Maintenance Section of this handbook.
7. Upon receiving written approval from the FMFM Unit Contact on the plans and specifications, the trail sponsor also applies for permits and other approvals that may be required for the project. Permit fees are reimbursable and should be included in the cost estimate for a project.
8. The trail sponsor submits the bid tabulation and contract award recommendation to their FMFM Unit Contact for review and approval.
9. The FMFM Unit Contact reviews the bid tabulation and provides written comments and/or approval to the trail sponsor. A copy of the written comments and/or approval from the FMFM Unit Contact to the trail sponsor is to be kept in the FMFM field office file.
10. Upon receiving written approval from the FMFM Unit Contact on the contract award recommendation, the trail sponsor awards the construction contract to the approved bidder. The trail sponsor must not award a contract until receiving written authorization from the Department.
11. Upon receiving all required permits, the trail sponsor provides a copy of each to their FMFM Unit Contact, and then initiates construction activities. A copy of all required permits is to be kept in the FMFM field office file.
12. The trail sponsor completes construction of the special maintenance project as described in the grant agreement and in accordance with plans, specifications, and permits. Trail sponsors are strongly encouraged to work cooperatively with their FMFM Unit Contact throughout the planning and construction of the special maintenance project. Regular review of progress on the project, and monitoring of costs is advised.

Grant Performance Criteria and Penalties

All of the Grant Program Performance Criteria and Penalties listed in Section VIII, of this handbook apply to management of special maintenance projects.

Permits

Award of a grant by the Department in no way ensures or implies that all applicable permits will be issued. Contact all necessary State and local agencies for information on applying for, and obtaining, permits.

Local agencies may include:

- ◆ County Health Department
- ◆ County Road Commission
- ◆ County Drain Commissioner

State agencies may include:

- ◆ Michigan Department of Environmental Quality (www.michigan.gov/deq)
- ◆ Michigan Department of Natural Resources (www.michigan.gov/dnr)
- ◆ Michigan Department of Community Health (www.michigan.gov/mdch)
- ◆ Michigan Department of Transportation (www.michigan.gov/mdot)

Performance of Construction by Contract

All contracts shall comply with the trail sponsor's grant agreement for the project. The trail sponsor shall comply with all applicable State laws and rules. The trail sponsor shall inform all bidders in the advertisement that State funds are being used to assist in construction, and that relevant State requirements will apply.

The trail sponsor shall include the following nondiscrimination provision in any contracts and subcontracts:

Pursuant to the requirements of the Michigan Civil Rights Act (1976 PA 453) and the Michigan Persons with Disabilities Act (1976 PA 220), and the Americans with Disabilities Act of 1990, the Trail Sponsor and its agents shall not discriminate against any employee or applicant for employment with respect to hire, tenure, terms, conditions, or privileges of employment, or a matter directly or indirectly related to employment, because of race, color, religion, national origin, age, sex, height, weight, marital status, or because of a disability unrelated to the person's ability to perform the duties of a particular job or position.

Bid Tabulation and Intent to Award

The trail sponsor is required to submit a bid tabulation to the FMFM Unit Contact on form *PR1993*, including alternates, if any, and recommendation for award. The FMFM Unit Contact will review the bid tabulation and will notify the trail sponsor in writing of the decision to accept or reject the proposal to award the contract. The contract shall be awarded to the lowest bidder, unless the trail sponsor can justify in writing why the contract should be awarded to the next lowest bidder. A decision by the FMFM Unit Contact regarding awarding of a contract to a bidder other than the lowest bidder will be issued in writing.

Changes to the Plans and Specifications

Changes to Department-approved plans and specifications shall not be made without written approval from the Department. If the project is being constructed by contract, and these changes affect the dollar amount of the contract, a copy of the Change Order must be submitted. Failure to obtain prior approval will cause these items to be ineligible for reimbursement.

Change Orders will be required in the following cases:

1. Adding or deleting a project scope item
2. Changing the nature of a scope item
3. Adding or deleting an element of the contract
4. Amending the grant as applicable.

Payment to the Trail Sponsor

Refer to Section X of this handbook for special maintenance and trail development reimbursement procedures.

The trail sponsor must notify their FMFM Unit Contact when work is complete and ready for inspection. The FMFM Unit Contact will inspect the work, authorize payment or report deficiencies to the trail sponsor for corrective action.

When all work and any required corrections have been completed to the satisfaction of the Department, the FMFM Unit Contact will forward the form *Reimbursement Request (PR1858)* completed by the trail sponsor, and supporting documentation supplied by the trail sponsor, to Grants Management.

Grants Management will review the financial information submitted, verify that the work has been inspected by the FMFM Unit Contact and that a partial or final payment has been approved prior to processing a payment. The trail sponsor must indicate on the Request for Reimbursement form that reimbursement is for either partial or final payment. A request for final payment should not be submitted until all construction or restoration work is completed. All construction of special maintenance projects will require certification of final inspection by the Department prior to final payment approval.

Reimbursement will only be made on costs associated with the elements listed in the grant agreement. As a general rule, only items that become a permanent part of the project are eligible for reimbursement. Examples of ineligible items include, but are not limited to bug spray, tools, gloves, food, etc.

Engineering Costs:

Reimbursement of engineering costs is limited to 15 percent of the approved project cost.

Equipment Costs:

If equipment is rented or equipment belonging to the trail sponsor is used to complete construction of a special maintenance project, the following information must be submitted in order to receive reimbursement (see example).

- ❖ Equipment number (if applicable)
- ❖ Type of equipment
- ❖ Rate charged for the equipment
- ❖ Number of hours used
- ❖ Total cost for the use of the equipment
- ❖ Michigan Department of Transportation (MDOT) equipment number obtained from their Equipment Rental Rates, Schedule C booklet, for the year in which the equipment was used. (These can be obtained from the MDOT, Maintenance Division)

EQUIPMENT USAGE EXAMPLE

Date	Grantee's Equipment Number	Equipment Type	Hourly Rate	Hours	Total Charged to Project	MDOT#
June 3, 2000	3	1984 Dodge Pickup	\$4.38	2	\$ 8.76	12.300
June 3, 2000	18	1969 Hough Front End Loader	\$21.98	4	\$87.92	96.006
June 3-5, 2000	20	International Backhoe	\$25.54	5	\$127.70	47.405
June 3-5, 2000	31	1977 Hough Front End Loader	\$21.98	8	\$175.84	96.006
June 3-5, 2000	36	1983 Ford Dump Truck	\$10.82	4	\$43.28	70.103
TOTAL EQUIPMENT					\$443.50	85.303

F. EQUIPMENT

Equipment Funding

What types of equipment are eligible for grant funds?

The following items are eligible for equipment grant funding:

- Trail grooming tractor
- Drag
- Front blade
- Communications radio or cell phone
- Brush cutter in lieu of drag

Who is eligible to apply?

Trail sponsors that have participated in the Recreational and Snowmobile Trail Improvement Grant Program for at least two years are eligible to apply for a new equipment grant.

What is the selection process?

Equipment grants are offered once each fiscal year. Recipients of equipment grants are selected based on information supplied by trail sponsors on their existing equipment. This information is reported on the Equipment Status Report (PR 1856) that is due in April of each year. Selection of grant recipients is determined by considering the age of the equipment; number of hours on the trail grooming equipment; the number of trail miles assigned to the trail sponsor; funding available; and other factors, such as excessive maintenance and repair costs required for the equipment.

What are the terms of the grant?

The Snowmobile Workgroup has recommended that equipment grants be offered for the 2006-07 fiscal year at 100% of the cost of new equipment, up to a specified maximum amount. The maximum grant amount allowed for each equipment item has not been determined. More details will be provided to trail sponsors when available.

Routine Maintenance

Routine maintenance costs are included in the per mile reimbursement rate. Routine maintenance includes the following examples: changing oil, filters, lubricants, wipers, light bulbs, hydraulic hoses, tires; making standard repairs; replacing or mending windshields and mirrors; adjusting and sharpening drag blades and performing minor welding.

Major Repairs

Major repair grants will be considered only if the equipment was purchased within five (5) years of the request. Major repairs include the following examples: replacing tracks, engine, transmission or large tractor tires. These major repairs will be considered on an individual basis.

To obtain a major repair grant, the trail sponsor submits a written request for grant funds to their FMFM Unit Contact. The FMFM Unit Contact will investigate and determine the appropriateness of the request. The FMFM Unit Contact will review the trail sponsor's routine maintenance schedules, documentation of repairs needed, and take photos of the equipment. If recommended for approval by the FMFM Unit Contact, the request will be forwarded to the FMFM Lansing office.

Grants Management will prepare a grant amendment for the cost of the major repairs, following approval by FMFM. Trail sponsors are required to pay the first \$1,000 toward the cost of the major repairs. The remaining cost will be 75% grant cost-shared.

Loans

Any loans using cost shared grooming equipment as collateral must list the State of Michigan, Department of Natural Resources, as the first secured party on the loan. This ensures the Recreation and Snowmobile Trail Grant Program receives reimbursement in case of default. Trail sponsors are to provide to the Department, a *National UCC Financing Statement (Form UCC-1)* listing the State of Michigan, Department of Natural Resources as a lien holder. The *National UCC Financing Statement (Form UCC-1)* is available at the following website address <http://www.michigan.gov/sos/>.

G. COMPREHENSIVE/COLLISION INSURANCE

The trail sponsor is required to carry comprehensive/collision insurance on groomers and grooming tractors funded under the grooming equipment replacement cost-share program. The cost of this insurance is reimbursable through the trail maintenance grant program. The cost of insurance for excess equipment retained by the trail sponsor will not be reimbursed.

H. MISCELLANEOUS EXPENSES

Miscellaneous expenses that are eligible for reimbursement include insurance premiums, land leases, snowplowing, portable toilet rental, and groomer utility payments.

Land Leases

Payment of leases for privately-owned lands for snowmobile trail purposes is eligible for grant funding. The maximum allowable rate for lease payments is \$300 per mile, payable at \$75 per quarter mile or any portion thereof. Those lands enrolled under the Commercial Forest Act are not eligible for lease payments. Payment will be made upon submittal of: completed and signed Reimbursement Request form; list of landowners with indication of trail length and payment amount for each landowner; and payment documentation.

As an alternative, an advance payment of 90% can be made to the trail sponsor, upon submittal of: completed and signed Reimbursement Request form; list of landowners with indication of trail length and payment amount for each landowner. The final payment of 10% will be made to the trail sponsor upon submittal of a completed and signed Reimbursement Request form and payment documentation. Request for the final 10% payment is due with the final reimbursement request for trail grooming, no later than April 30. Any undocumented lease payments will be deducted from the final grooming reimbursement. Land lease documentation expenses such as purchase of cashiers checks or money orders will be reimbursable.

Snowplowing

Snowplowing may be done by either of two methods:

1. The trail sponsor may contract the work to an outside contractor and receive reimbursement through the grant program. Any contract with estimated cost of \$2,500 or more must go through the bid selection process.
2. The trail sponsor may perform the work and receive payment through the grant program based on Michigan Department of Transportation Schedule C rates.

Portable Toilet Rental

Portable toilet rentals must be in compliance with the Americans with Disability Act of 1991 (ADA). If more than one portable toilet is placed in the same location, only one needs to be ADA compliant.

Utility Payment

The Groomer Utility Payment is \$600 per year for each piece of equipment authorized for the designated trail miles (refer to Section VII, item 3). Payment will be made on a monthly basis during the grooming season (total allotment divided by 4 = monthly payment amount).

I. DAMAGES

Payments for damage caused by off trail snowmobile use on private lands under lease, easement or permit will be considered on a case-by-case basis. Requests for damage payments must be submitted through the appropriate FMFM Unit Contact, who will verify the damage and forward the payment request, with supporting documentation, to Grants Management.

J. SIGN PLAN

The trail sponsor shall provide the trail location for its entire length on the most current county map. The location of all stop and stop-ahead signs must be identified on this map.

SECTION IV. GRANT APPLICATION REVIEW PROCESS

The grant handbook and grant application are mailed directly to established trail sponsors. **Trail sponsors are encouraged to work with their FMFM Unit Contact to make sure their grant application is complete and submitted to Grants Management by the July 31 deadline.**

The Department will evaluate each application and determine the completeness of the grant application and accompanying information and documentation. Funding for each trail sponsor will be determined by the Department, utilizing information and recommendations from the appropriate FMFM Unit Manager.

Grant agreements will be prepared by the Department following the selection process. Two copies of a grant agreement will be distributed to each trail sponsor for appropriate signatures. Both copies must be signed by the primary and secondary contacts for the trail sponsor and returned to Grants Management. Grant agreements become effective upon signing by the Department. One executed (signed by the Department) grant agreement with original signatures will be provided to the trail sponsor with a copy to the FMFM Unit Contact. After the grant agreements have been executed, the Department will work directly with only the primary and secondary contacts, as identified in the agreement.

SECTION V. PROPOSALS FOR DEVELOPMENT OF NEW TRAIL SEGMENTS

Development of new trails can be nominated by local units of government, nonprofit incorporated organizations, including trail sponsors, and the Department. Form R1862E is used for all new trail proposals regardless of land ownership or origin of the nomination. This form is available at each Department Management Unit.

The following trail design specifications must be met and should be kept in mind during the proposal of new trail segments. In the development of new trail segments:

- Do not route trails over the frozen surface of any lake, pond, stream or river.
- If stream or river crossings are necessary, install bridges or culverts that are approved and permitted by the Department of Environmental Quality per Part 31 Water Resources Protection (floodplain regulations), and Part 301 Inland Lakes and Streams, of Act 451 prior to beginning site work.
- Wetland areas should be avoided whenever an alternate route is available.
- If trail sections need to be routed through a wetland, obtain a permit from the Department of Environmental Quality per Part 303 Wetland Protection, of Act 451 prior to beginning site work (this includes construction, earth-moving activities and establishing a new use such as a trail).
- Provide a copy of all regulatory permits to the appropriate FMFM Unit Manager before beginning any site work (see the Grant Program Performance Criteria section of this booklet for consequences of noncompliance with the permit requirement).
- Permit fees are a reimbursable expense and must be included in the project cost estimate.
- No snowmobile program funds will be used to reimburse a trail sponsor for any work done without required permits or to pay any fines levied as the result of unauthorized work.
- The road right-of-way must have an adequate, unplowed area to allow snowmobile use without conflict with vehicular traffic. The Department and the agency having jurisdiction over a highway may approve a two-way trail on one side of the highway. This approval must be in writing and signed by the appropriate FMFM Unit Manager and by the agency with jurisdiction over the road. Where snowmobile trails approach and cross federal, State, or county roads, the trail should be kept as close as possible to the road elevation. This will allow for better visibility by the snowmobiler and drivers of motor vehicles on the road.
- Only approved, public or private crossings may be used to cross railroad grades and/or tracks.

SECTION VI. EVALUATION CRITERIA FOR NEW TRAIL DEVELOPMENT

The Department will evaluate proposals for new trail development within the context of its statutory obligations. New trail proposals are balanced and measured against multiple management goals. The Department is committed to the conservation, protection, management, use and enjoyment of the State's natural resources for current and future generations. This commitment requires the Department to consider all input from all programs that may be affected.

In addition to those listed above, the Department will evaluate new trail proposals using the following criteria:

1. Does the appropriate FMFM Unit Office support the proposed trail?
2. Does the proposed trail fit within the planned snowmobile trail system recommended by the Snowmobile Advisory Committee and approved by the Department?
3. Does the proposed trail avoid plowed roads, except for short, incidental portions (bridge crossings, etc.)?
4. Will the proposed trail route avoid the frozen surface of all lakes, ponds, streams and rivers?
5. Can the proposed trail meet minimum State trail standards?
6. Does the new trail connect existing trails or communities?
7. Will the proposed trail be located on public lands?
8. Will the proposed trail be located on private lands?
9. Does the grant sponsor have required written permissions secured? Refer to Section III, Part C of this handbook for required land control.
10. Does the organization submitting the snowmobile trail development proposal have, or have access to, adequate equipment to maintain the proposed trail?
11. Are estimated costs for development reasonable and, considering current funding, feasible?
12. Is funding available for development and ongoing maintenance of the proposed trail?

SECTION VII. ESTABLISHMENT OF NEW TRAIL SPONSORS

New trail sponsors may be approved for grant funding under certain conditions. A new trail sponsor may assume the responsibilities for an established trail segment if an established trail sponsor voluntarily gives up sponsorship of that trail segment or is involuntarily removed from the program by the Department. New trail sponsors will be reviewed by the Department using the following criteria:

1. The demonstrated need for a trail sponsor or an additional trail sponsor for the established trail indicated on the grant application.
2. An indication that the trail sponsor has adequate personnel and financial resources available to meet the requirements of the grant agreement.
3. Possession or access to adequate equipment to maintain the trail(s) indicated on the grant application prior to the beginning of the next grooming season. The maximum trail miles to be approved for a trail sponsor will be 50 miles per groomer. Requests for trail miles greater than 50 miles per groomer will be considered on a case-by-case basis.
4. Eligibility status of the trail sponsor. Any new sponsor that is reviewed and accepted by the Department is subject to all grant handbook requirements.

SECTION VIII. GRANT PROGRAM PERFORMANCE CRITERIA

All trail sponsors receiving a grant must meet the performance criteria listed in this section. A written Notice of Failure to Perform may be issued by the Department to a trail sponsor based on performance issues documented in the grant file. Consequences of not correcting performance issues may result in the Department imposing reimbursement penalties and/or eliminating the trail sponsor from the grant program.

Listed below are the performance criteria that each sponsor must meet to maintain eligibility status in the recreational and snowmobile trail grant program.

A. COMPLIANCE WITH LAWS AND REGULATIONS

Standard: The trail sponsor must meet all requirements of Part 821 Snowmobiles, of Act 451 and associated administrative rules. The trail sponsor must comply with all other applicable laws of the State of Michigan. This includes applying for and obtaining State and local permits prior to beginning work on a project that may involve State and/or local regulations.

Penalty: Failure to meet this standard is a violation of the law and/or administrative rules and will result in issuance by the Department of a written Notice of Failure to Perform to the trail sponsor. The trail sponsor will have three working days to come into compliance or the grant agreement may be terminated. In addition, fines and fees may be levied on a trail sponsor by the regulatory agencies and payment of those fines and/or fees are the sole responsibility of the trail sponsor.

B. COMPLETE AND ACCURATE FORMS AND SUBMITTALS

Standard: The trail sponsor must meet the Department application deadline dates and all other specified deadline dates as listed in this booklet. All forms must be filled out completely and accurately.

Penalty: Submission of incomplete or illegible application, forms, or reports and missing due dates may result in issuance by the Department of a written Notice of Failure to Perform to the trail sponsor. Reports will be returned to the trail sponsor, with the processing of related documents ceasing until required information is received by the Department.

Three documented instances of failure to meet the deadline dates specified in the grant application or the grant agreement in a two-year period will be sufficient cause for elimination of the trail sponsor from the grant program, or placement on one-year probation. Any violation of deadline dates during the probationary period will be sufficient cause for immediate elimination from the grant program.

Falsification of any document, form or report will result in issuance by the Department of a written Notice of Failure to Perform to the trail sponsor and immediate termination from the snowmobile trail grant program.

C. COMPLIANCE WITH BRUSHING, SIGNING, AND GROOMING SPECIFICATIONS

Standard: The sponsor must meet brushing, signing, and grooming specifications as provided in this grant handbook and the "DNR Snowmobile Trail Signing Handbook."

Penalty: Notice of noncompliance and reimbursement penalties may be imposed by the Department for inadequate brushing, signing, and grooming by the trail sponsor as follows:

Noncompliance for brushing, signing or grooming will result in the Department issuing a written Notice of Failure to Perform to the trail sponsor and a penalty of a five percent (5%) reduction of the current monthly reimbursement. Each subsequent case of noncompliance will result in a written Notice of Failure to Perform and an additional penalty of a five percent (5%) reduction of the current monthly reimbursement.

Two (2) written Notices of Failure to Perform issued in one (1) year will be sufficient cause for elimination from the program or placement on one-year probation. Receipt of a written Notice of Failure to Perform while on probation is sufficient cause for immediate elimination from the grant program.

D. TIMELY COMPLETION OF SPECIAL MAINTENANCE PROJECTS

Standard: The trail sponsor must complete all special maintenance projects in a timely manner. All projects must be completed within the time frame specified in the grant agreement.

Required regulatory permits must be obtained and kept on file with the FMFM Unit Office prior to commencing work on any project.

Penalty: Failure of the trail sponsor to complete special maintenance projects as specified in the grant agreement will result in a Notice of Failure to Perform.

Funds will not be carried forward into the succeeding fiscal year and the sponsor may not submit an application for project re-approval.

E. CUMULATIVE FAILURE TO PERFORM

Penalty: Receipt of more than three written Notices of Failure to Perform for any reason in a two-year period will be sufficient cause for elimination of the trail sponsor from the grant program.

SECTION IX. SNOWMOBILE TRAIL SPECIFICATIONS

A. SNOWMOBILE TRAIL BRUSHING SPECIFICATIONS

Trail sponsors are required to meet the following specifications in order for their work to be eligible for reimbursement:

1. Maintain trails at a minimum groomed surface width of 8 feet, with a width of 12 feet to 16 feet desirable.
2. Clear trails of all trees, brush, stumps and rocks within one foot of either side of the groomed surface. The trail sponsor is responsible for removing all obstructions located within the above clearance specifications. No brush or debris shall protrude into the trail so that they may cause injury. **Trees, logs, foliage, branches, brush and other debris shall be pruned back flush to the main branch, trunk, or cut flush with ground level.** Fallen trees and logs shall be removed to maintain specified trail width. Ground logs shall be cut "bucked" at 30 degrees, or as otherwise directed by the jurisdictional agency. All debris resulting from the clearing activity shall be removed from the trail and disposed of in a manner that will not cause harm. The trail sponsor shall brush all trail intersections to maintain clear view of all traffic control devices.
3. Clear trail to a minimum height of 12 feet above the expected groomed trail snow depth.

B. SNOWMOBILE TRAIL SIGNAGE SPECIFICATIONS

All signs used on State-funded trails must meet the specifications as detailed in the *Michigan DNR Snowmobile Trail Signing Handbook*. Signs for the snowmobile trail program will be provided to trail sponsors by the Department. These signs are to be used **only** on designated snowmobile trails, following specifications for placement found in the *Michigan DNR Snowmobile Trail Signing Handbook*.

A trail sign order form is provided to all trail sponsors in March for an order to be placed by the Department. Trail sponsors need to work with their FMFM Unit Contact to ensure that all required signs for the year are ordered at this time.

C. SNOWMOBILE TRAIL GROOMING SPECIFICATIONS

Administrative Rules define a groom as one complete maintenance operation for the full length of the approved trail. Grooming reimbursement will be based on a maintenance operation of any segment of the total assigned miles. Sponsors are encouraged to provide a safe, smooth trail. Four basic operations are required to produce a well groomed trail that is durable. The basic operations include: removal of moguls; processing the snow; compression of the processed snow; and trail set up. Simply panning the trail is undesirable.

All grooming work must be prescheduled with an FMFM Unit Contact on a **daily or weekly basis**. Pre-scheduling must be done by written schedule or voice mail at the discretion of the FMFM Unit Contact. Trail sponsors are responsible for clearing snow off of roads that results from the operation of groomers or snowmobiles at all road crossings.

Special notes and provisions:

- ❖ Trail sponsors may groom up to twenty-five percent (25%) of their approved assigned trail mileage off the designated snowmobile trail system **at no expense** to the program.
- ❖ No grooming shall be done on a frozen body of water.
- ❖ Any place where groomers are used, the land that is groomed must be open to public use.
- ❖ Local, state, and federal land managers must be contacted and permission obtained for grooming off the designated trail system on local, state, or federal lands.

SECTION X. GRANT PROGRAM REIMBURSEMENT PROCEDURES

A. GENERAL REIMBURSEMENT PROCEDURES

New this year, the Department will be making payments to trail sponsors through electronic fund transfers (EFT). Trail sponsors must register on the State Vendor File by logging into the Contract and Payment Express (C&PE) website at www.cpexpress.state.mi.us. Follow the online instructions to complete the first portion of the registration process. A password will then be mailed to the trail sponsor. Return to the C&PE website; enter the User ID and the password received. The trail sponsor will then be asked to create a new password. Click on the "View Registration Details" link and then click on the "Sign Up for Electronic Funds Transfer (Direct Deposit)" link. Enter the requested information, including bank routing and account numbers. After the trail sponsor returns the "Electronic Funds Transfer (Direct Deposit) Authorization for Vendor Payments" form, as directed on the website, the process is complete. The trail sponsor should be ready to receive EFT within two weeks.

Reimbursement requests will be done the same as in previous years; trail sponsors are to request reimbursement for work completed as itemized in their grant agreement using form *PR1858, Reimbursement Request*. Both signatories to the grant agreement representing the trail sponsor must sign the reimbursement request. Completed reimbursement forms, along with supporting documentation such as copies of bids, invoices, receipts, and cancelled checks must be submitted to the appropriate FMFM Unit Contact. The FMFM Unit Contact will review the reimbursement request and may conduct an inspection of maintained trails. Upon approval and signature by the FMFM Unit Office, the reimbursement request will be forwarded to Grants Management for payment processing.

Reimbursement requests for grooming, brushing and signing, lease payments, insurance, and special maintenance items may be combined on the same form. Reimbursement requests for equipment purchases should be submitted separately with the proper grant number indicated on the front of the form.

Requests for reimbursement to pay for damages on privately-owned lands, special sign needs, and other nonstandard items will be considered on a case-by-case basis and must be pre-approved by the Department. Expenditure of funds by a trail sponsor for any of these nonstandard items prior to receiving written approval from the Department may result in the reimbursement request being denied.

For the purposes of the Recreational and Snowmobile Trail Program, any one of the following will be considered proper documentation for reimbursement:

If paying by check...

Provide a copy of the front and back of a cancelled check or;

a copy of the front of a check and a copy of the bank statement showing that the check has cleared the financial institution.

If paying by bank check or money order...

Provide a copy of the front of an official bank check or money order.

If paying by credit card...

Provide a copy of the invoice, credit card charge form, and a credit card statement with the charge on it.

If paying with cash...only for purchases of \$99.99 or less....

Provide a copy of the vendor's invoice showing what was purchased, total price, date of purchase, and marked "Paid in Full-Cash." Payment for purchases in the amount of \$100 or more must be documented as indicated above for check, money order, or credit card.

B. GROOMING, BRUSHING AND SIGNING REIMBURSEMENT PROCEDURES

Grooming Reimbursement

- ❖ Complete form *PR1858, Reimbursement Request*.
- ❖ Provide the trail sponsor information on the front of the form.
- ❖ Provide the weekly grooming information on the front of the form. Use one form for each month of grooming, December through March.
- ❖ Sign the form (the same signatories to the trail sponsor's grant agreement).
- ❖ Attach the *Weekly Snowmobile Trail Grooming Report (PR1855)* to the Reimbursement Request.
- ❖ Send both forms to the appropriate FMFM Unit Office by the 15th of the month following the month of grooming operations. The FMFM Unit Manager has the full authority to approve or disapprove grooming reimbursements.

NOTE: The grooming reimbursement rate is based, in part, on fuel costs and will be adjusted each year prior to the beginning of the trail grooming season. The grooming reimbursements will be paid for grooming actually performed and documented each month of the grooming season.

Brushing and Signing Reimbursement

- ❖ Complete form *PR1858, Reimbursement Request*.
- ❖ Provide the trail sponsor information on the front of the form.
- ❖ Provide the monthly reimbursement amount, 3-month start-up funding amount, or 1-month final payment amount on the front of the form.
- ❖ Sign the form (the same signatories to the trail sponsor's grant agreement).
- ❖ Send form to the appropriate FMFM Unit Office.

NOTE: The brushing and signing allotment is \$90 per mile for the four-month grooming season; December, January, February and March. Reimbursement can be done on a monthly basis (total allotment divided by 4 = monthly payment amount), or the reimbursement can be done on a 3-month start-up payment requested by December 31, and the final 1 month payment at the end of the season, requested by April 30. Use form *PR1858, Reimbursement Request* to request payment with either method.

C. SPECIAL MAINTENANCE, TRAIL DEVELOPMENT AND MAJOR EQUIPMENT REPAIR REIMBURSEMENT PROCEDURES

- ❖ Complete form *PR1858, Reimbursement Request*. Do not combine different grant years on the same reimbursement form.
- ❖ Provide the trail sponsor information on the front of the form.
- ❖ Provide the description and cost of the work on the back of the form. Refer to page 3 of your grant agreement and use the same descriptions listed there for each project. On the reimbursement form, provide the actual cost of each project (not the dollar figure shown on the grant agreement).
- ❖ Sign the form (the same signatories to the trail sponsor's grant agreement).
- ❖ Attach copies of invoices and/or receipts, bids, bid tabulation form and payment documentation (refer to General Reimbursement Procedures in this handbook).
- ❖ Send the form and attachments to the appropriate FMFM Unit Office

NOTE: The trail sponsor must notify their FMFM Unit Contact within 15 calendar days following completion of any special maintenance or new development project. Reimbursement requests need to be submitted by the trail sponsor to the appropriate FMFM Unit Office within 30 calendar days following completion of the project or major equipment repair.

Advance payments may be made on special maintenance, new development projects and major equipment repairs with a cost of \$2,500 or more. The trail sponsor must submit a reimbursement request for an advance payment of seventy-five percent (75%) of the actual project or repair cost. Upon receipt of the seventy-five percent (75%) advance payment, the trail sponsor must pay the entire cost of the project or repair. The trail sponsor then submits the required documentation showing payment of the entire project or repair cost, in order to receive the twenty-five percent (25%) balance. A reimbursement request form (*PR1858*) is required when requesting the initial 75% payment and when requesting the final 25% payment.

D. CONTINGENCY REIMBURSEMENT PROCEDURES

- ❖ Complete form *PR1858, Reimbursement Request*. Do not combine different grant years on the same reimbursement form.
- ❖ Provide the trail sponsor information on the front of the form.
- ❖ Provide the location, description and cost of the work on the back of the form in the Special Maintenance section. Briefly describe the project (for example: "removal of downed tree across trail") and write CONTINGENCY next to it.
- ❖ Sign the form (the same signatories to the trail sponsor's grant agreement).
- ❖ Attach copies of invoices and/or receipts, bids, bid tabulation form and payment documentation (refer to General Reimbursement Procedures in this handbook).
- ❖ Attach copy of the written approval obtained from the FMFM Unit Contact for the specific project.
- ❖ Send the form and attachments to the appropriate FMFM Unit Office.

NOTE: \$3,000 in contingency funds are provided on each trail sponsor's grant agreement for circumstances that require immediate attention, such as downed trees across a trail or other storm damage that may affect safe use of the trail. Written approval including scope of work and estimated cost must be obtained from the FMFM Unit Contact prior to conducting any work or incurring costs associated with a contingency project. The written approval must be specific to the project and dated prior to the start of the work. Cost overruns on funded projects are not eligible for contingency fund use.

E. MISCELLANEOUS EXPENSES REIMBURSEMENT PROCEDURES

Insurance Reimbursement

- ❖ Complete form *PR1858, Reimbursement Request*.
- ❖ Provide the trail sponsor information on the front of the form.
- ❖ Provide the costs for trail liability insurance and comprehensive/collision insurance for grooming equipment on the back of the form.
- ❖ Sign the form (the same signatories to the trail sponsor's grant agreement).
- ❖ Attach copy of invoices and/or receipts and payment documentation (refer to General Reimbursement Procedures in this handbook).
- ❖ Send the form to the appropriate FMFM Unit Office.

NOTE: The comprehensive/collision insurance documentation on insurance company declaration form, must include a list of all equipment being insured, the insured value of each piece of equipment and the premium paid for each piece of eligible equipment in the program.

Lease Payments Reimbursement

- ❖ Complete form *PR1858, Reimbursement Request*.
- ❖ Provide the trail sponsor information on the front of the form.
- ❖ Provide the costs for payment of leases on the back of the form.
- ❖ Sign the form (the same signatories to the trail sponsor's grant agreement).
- ❖ Attach a list of all property owners being paid for leased land and indicate the amount paid to each property owner and the length of trail on each property.
- ❖ Attach copy of payment documentation (refer to General Reimbursement Procedures in this handbook).
- ❖ Send the form and attachments to the appropriate FMFM Unit Office.

NOTE: An advance payment of 90% can be made to the trail sponsor, upon written request on the reimbursement form and submittal of a list of private landowners with length of trail and amount to be paid indicated for each landowner. A final payment of 10% will be made to the trail sponsor upon submission of a reimbursement request form along with payment documentation. Request for the final 10% payment is due with the final reimbursement request for trail grooming, no later than April 30. Any undocumented lease payments will be deducted from the final grooming reimbursement. Land lease documentation expenses such as purchase of cashiers checks or money orders are reimbursable.

Snow Plowing and Portable Toilet Rental Reimbursement

- ❖ Complete form *PR1858, Reimbursement Request*.
- ❖ Provide the trail sponsor information on the front of the form.
- ❖ Provide the costs for payment of snow plowing and/or portable toilet rental on the back of the form.
- ❖ Sign the form (the same signatories to the trail sponsor's grant agreement).
- ❖ Attach copy of payment documentation (refer to General Reimbursement Procedures in this handbook).
- ❖ Send the form and attachments to the appropriate FMFM Unit Office.

Groomer Utility Payment

- ❖ Complete form *PR1858, Reimbursement Request*.
- ❖ Provide the trail sponsor information on the front of the form.
- ❖ Provide the monthly cost for payment of groomer(s) utility on the back of the form.
- ❖ Sign the form (the same signatories to the trail sponsor's grant agreement).
- ❖ Send the form to the appropriate FMFM Unit Office.
- ❖ Payment will be made on a monthly basis during the grooming season (total allotment divided by 4 = monthly payment amount)

F. GROOMING EQUIPMENT REIMBURSEMENT PROCEDURES

Grooming Equipment Reimbursement

- ❖ Complete form *PR1858, Reimbursement Request*. Do not combine grooming equipment with other reimbursement requests.
- ❖ Provide the trail sponsor information on the front of the form.
- ❖ Provide the description and actual cost of the grooming equipment on the back of the form. Refer to your grant agreement and use the same descriptions listed there for each piece of equipment. On the reimbursement form, provide the actual cost of each item (not the dollar figure shown on the grant agreement).
- ❖ Sign the form (the same signatories to the trail sponsor's grant agreement).
- ❖ For initial payment: attach a copy of the invoices and/or receipts. Invoice must contain trade in value. If cost shared equipment is being sold, appraised fair market selling price must be provided.
- ❖ For final payment: attach a copy of payment documentation. The trail sponsor must send in payment documentation within 60 days of receiving the state-issued equipment grant check. If payment documentation is not received within 60 days of equipment check issuance, the trail sponsor shall return the initial payment to Grants Management. (Refer to General Reimbursement Procedures in this handbook).
- ❖ Send the form and attachments to the appropriate FMFM Unit Office.

APPENDIX 2. GLOSSARY OF TERMS

ADMINISTRATIVE RULES: Rules governing the State administration of the recreational and snowmobile trail grant program.

BUCK CUT: To saw or cut a log at approximately 30-degree angle away from the edge of the trail.

CONTINGENCY FUNDS: \$3,000 in contingency funds are provided on each trail sponsor's grant agreement for circumstances that require immediate attention, such as downed trees across a trail or other storm damage that may affect safe use of the trail. Written approval including scope of work and estimated cost must be obtained from the FMFM Unit Contact prior to conducting any work or incurring costs associated with a contingency project. The written approval must be specific to the project and dated prior to the start of the work. Cost overruns on funded projects are not eligible for contingency fund use.

DAMAGES: Damage or destruction of property, fixtures or landscape along a snowmobile trail that can be clearly shown to have been caused by trail users.

DEPARTMENT: Michigan Department of Natural Resources.

DEVELOPMENT: Construction of new snowmobile trails.

FMFM: Forest, Mineral and Fire Management of the Michigan Department of Natural Resources.

FMFM UNIT CONTACT: FMFM staff person with designated oversight responsibility to inspect and coordinate with specific trail sponsors. The contact person may be the FMFM Unit Manager or his/her designee.

GRANT AGREEMENT: Executed document that is signed and dated by the trail sponsor and the Department to secure funding and prescribe duties, responsibilities and conditions of the grant.

GRANT AMENDMENT: Executed document that is signed and dated by the trail sponsor and the Department to specify changes to a grant agreement.

GRANT APPLICATION: Form to request funding for snowmobile trail grooming and maintenance (Form PR1851)

GRANTS MANAGEMENT: Grants Management of the Michigan Department of Natural Resources

GROOM: One complete maintenance operation for the full length of the approved trail.

GROOMER UTILITY PAYMENT: Payment intended to pay for utility costs for the groomer(s).

NOTICE OF FAILURE TO PERFORM: Written notice from the Department to a trail sponsor documenting the failure of the trail sponsor to meet the terms and conditions of the Recreational and Snowmobile Trail Grant Handbook, DNR Snowmobile Trail Signing Handbook, Grant Application or Grant Agreement.

PERFORMANCE CRITERIA: Criteria to evaluate a trail sponsor's performance in meeting the terms and conditions of their grant agreement.

PRIMARY CONTACT PERSON: That person designated by the trail sponsor to receive all correspondence or calls concerning their grant agreement.

REIMBURSEMENT REQUEST: Form to request payment for authorized expenditures as shown on a grant agreement, including amendments (Form PR1858)

SELECTION CRITERIA: Criteria the Department uses for reviewing proposals and selecting recipients of grant funding for trail grooming, brushing and signing and for special maintenance projects.

SIGN ORDER FORM: Form used to document snowmobile trail sign needs and to order signs (Form PR1857).

SNOWMOBILE TRAIL DEVELOPMENT PROPOSAL: Form used by trail sponsors to propose development of a new snowmobile trail segment (Form R1862E).

SNOWMOBILE TRAIL GROOMING EQUIPMENT STATUS REPORT: Form to document the status of trail grooming equipment (Form PR1856).

SPECIAL MAINTENANCE: Off-season trail maintenance that may include bridge repair or replacement, trail grading, erosion control and trail relocation. The special maintenance projects and maximum dollar amount allowed for each project are shown on page 3 of the trail sponsor's grant agreement. Special maintenance does not include trail grooming, brushing or signing of assigned trail segments.

TOTAL BRUSHING/ SIGNING ALLOTMENT: The calculated maximum dollar amount available to a trail sponsor for brushing (keeping trails cleared of brush and branches), and signing (placing signs along trails) their assigned trail segments during one snowmobile season. This dollar amount is shown on page 2 of the trail sponsor's grant agreement.

TOTAL VARIABLE GROOMING ALLOCATION: The calculated maximum dollar amount available to a trail sponsor for grooming their assigned trail segments during one snowmobile season. This dollar amount is shown on page 2 of a trail sponsor's grant agreement. Reimbursement is dependent on the actual frequency of grooms and the length of the snowmobile season.

TRAIL INSPECTION FORM: Form used to document inspection of trails.

TRAIL RE-ROUTE: Moving an existing trail or segment of trail to a different location.

TRAIL SPONSOR: A local unit of government or nonprofit, incorporated organization which has been awarded a snowmobile trail maintenance grant for work to be done on the State trail system.

WEEKLY SNOWMOBILE TRAIL GROOMING REPORT: Form for documenting trail grooming work by trail sponsor or Department personnel (Form PR 1855).

APPENDIX 3. FORMS

Please do not use old forms. All forms needed for this program are available in hardcopy and will be provided to trail sponsors at the beginning of the grant year, and upon request.

Forms may also be accessed on the Department website following these directions:

Go to www.michigan.gov/dnr-grants and click on “Grant Programs”. Then click on “Snowmobile Trail Improvement Program” and then “Forms and Publications” to view the forms and publications for this program. Click on a form or publication to view it or to print it. Some of the forms are available on the website in a fillable format.
